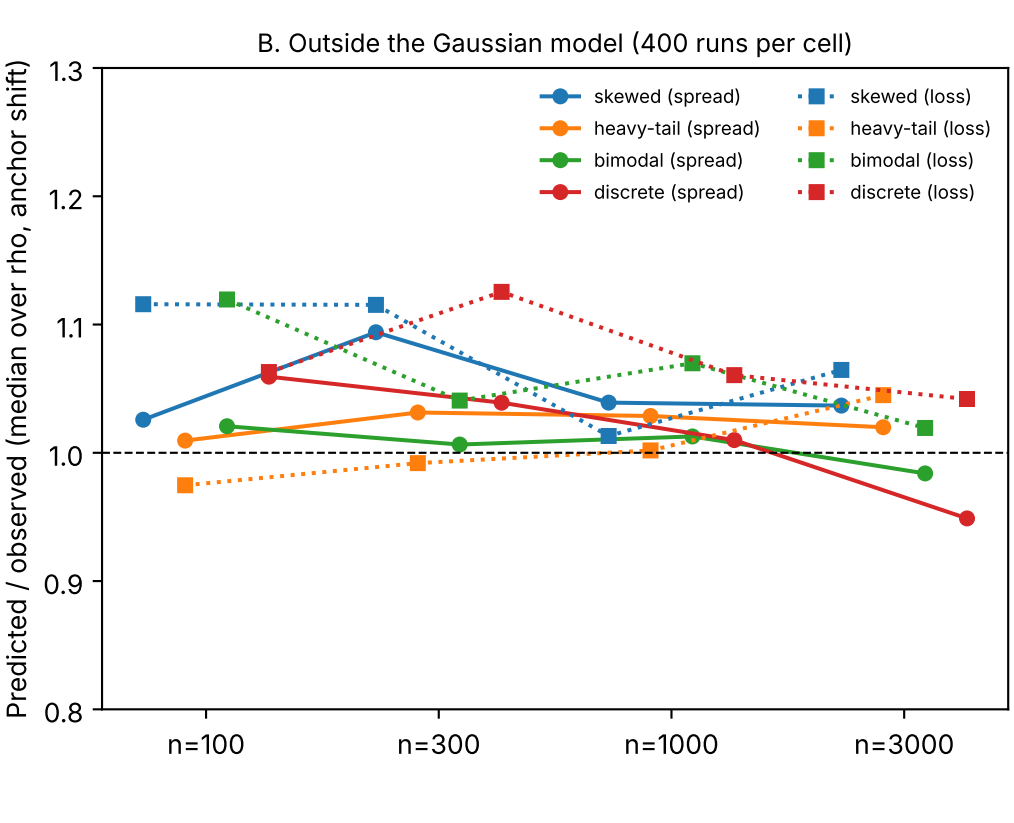
A. Brugada: spread of the CATT threshold (561 points)
median pred/obs 1.09; label-free 1.08
concept anchors: population a
black-box anchors: population a
label-free plug-in (one unlabelled subsample)
Predicted a * SD(Z)
Observed SD of t_hat over 300 subsamples (logit)
10^0
10^{-1}



B. Outside the Gaussian model (400 runs per cell)
skewed (spread)
heavy-tail (spread)
bimodal (spread)
discrete (spread)
skewed (loss)
heavy-tail (loss)
bimodal (loss)
discrete (loss)
Predicted / observed (median over rho, anchor shift)
